PYORA SOLUTIONS

Our Services

ERP Solution (CLOUD | DESKTOP)

ERP (Enterprise Resource Planning) software is an integrated business management system that connects all core business processes into a single platform. It helps organizations streamline operations, improve productivity, automate workflows, and make informed decisions through real-time data and centralized management.

Key Features

- **Centralized Data Management** – Manage all business information from a single database.
- **Human Resource Management** – Handle employee records, payroll, attendance, and leave.
- **Sales & CRM –** Manage leads, customers, quotations, orders, and sales activities.
- **Reporting & Analytics –** Generate real-time dashboards and business insights.
- **Cloud & Mobile Access –** Access business data securely from anywhere, anytime.

PYORA SOLUTIONS

Odoo Complete Solution

Odoo is a comprehensive, all-in-one business management solution that integrates every department into a single, unified platform. From sales and finance to inventory, manufacturing, HR, and CRM, Odoo helps businesses automate processes, improve efficiency, and make smarter decisions with real-time data.

Key Features

- **Modular Business Applications –** Choose and customize modules based on your business needs.
- **CRM & Sales Management –** Manage leads, quotations, orders, and customer relationships.
- **Accounting & Finance –** Automate invoicing, payments, budgeting, and financial reporting.
- **Inventory & Warehouse Management –** Track stock, warehouses, and product movements in real time.
- **Human Resources (HR) –** Manage employees, attendance, payroll, recruitment, and leave.
- **Cloud-Based & Scalable –** Secure, flexible, and accessible from anywhere, with the ability to grow alongside your business.

PYORA SOLUTIONS

Travel Management System

A Travel Management System (TMS) is a comprehensive software solution that simplifies and automates travel planning, booking, approvals, expense tracking, and itinerary management. It helps businesses and travel agencies improve efficiency, reduce costs, and deliver a seamless travel experience through a centralized platform.

Key Features

- Online Booking Management – Book flights, hotels, transport, and travel packages.
- Itinerary Management – Create and manage complete travel schedules in one place.
- Travel Approval Workflow – Automate travel requests and approval processes.
- Reporting & Analytics – Monitor travel costs, bookings, and performance with detailed reports.
- Integrated Payment & Billing – Simplify invoicing, payments, and financial management.
- Real-Time Notifications – Receive instant updates on bookings, schedules, and travel changes.

PYORA SOLUTIONS

Distribution Management System

A Distribution Management System (DMS) is a powerful software solution that helps businesses manage orders, inventory, warehouses, and their distributor and dealer network from one centralized platform. It streamlines supply chain operations, reduces manual errors, improves stock visibility, and ensures products reach customers on time through accurate, real-time data.

Key Features

- **Order Management –** Process, track, and manage customer orders efficiently.
- **Warehouse Management –** Manage storage, stock movement, and warehouse operations.
- **Distributor & Dealer Management –** Maintain distributor, dealer, and retailer information.
- **Real-Time Reporting –** Generate detailed reports and business insights for better decision-making.
- **Multi-Location Support –** Manage operations across multiple warehouses and branches.
- **Role-Based Access & Security –** Ensure secure access with customizable user permissions.

PYORA SOLUTIONS

Production Management System

A Production Management System (PMS) is a powerful software solution that helps manufacturers plan, monitor, and control the entire production process. It streamlines manufacturing operations, optimizes resource utilization, reduces production costs, and ensures products are delivered on time while maintaining high quality.

Key Features

- **Work Order Management –** Create, assign, and monitor production work orders.
- **Inventory & Raw Material Tracking –** Monitor stock levels and material consumption in real time.
- **Production Monitoring –** Track production progress and identify bottlenecks in real time.
- **Cost Analysis & Reporting –** Analyze production costs, efficiency, and overall performance.
- **Warehouse Integration –** Synchronize production with inventory and warehouse operations.
- **Real-Time Dashboards –** Access live production data and performance reports for informed decision-making.

PYORA SOLUTIONS

Mobile App Development

Mobile app development is the process of designing and building user-friendly applications for Android and iOS devices. It enables businesses to enhance customer engagement, streamline operations, and deliver seamless digital experiences through secure, scalable, and high-performance mobile solutions.

Key Features

- **Android & iOS Development –** Build apps for both major mobile platforms.
- **Custom UI/UX Design –** Create intuitive and engaging user experiences.
- **API &Third-Party Integration –** Connect with payment gateways, CRM, ERP, and other services.
- **Push Notifications –** Send real-time alerts and updates to users.
- **Cloud Integration –** Sync data securely across devices using cloud services.
- **Performance Optimization –** Deliver fast, responsive, and reliable applications.

PYORA SOLUTIONS

Web Development

Web development is the process of designing and building responsive, secure, and high-performance websites and web applications. It helps businesses establish a strong online presence, improve customer engagement, and deliver seamless digital experiences across all devices.

Key Features

- **Custom Website Development –** Tailor-made websites designed to meet your business needs.
- **Responsive Design –** Optimized for desktops, tablets, and mobile devices.
- **eCommerce Development –** Secure online stores with shopping cart and payment integration.
- **SEO-Friendly Structure –** Optimized for better search engine visibility.
- **Fast Performance –** Speed-optimized websites for an enhanced user experience.
- **Maintenance & Support –** Ongoing updates, monitoring, and technical support.

PYORA SOLUTIONS

Social Media Marketing

Social Media Marketing (SMM) is the strategic use of social media platforms to promote a brand, engage with customers, and drive business growth. It helps businesses increase brand awareness, generate quality leads, and build lasting customer relationships through targeted and engaging content.

Key Features

- **Social Media Strategy –** Create customized marketing plans for business growth.
- **Content Creation –** Design engaging posts, graphics, videos, and promotional content.
- **Multi-Platform Management –** Manage Facebook, Instagram, TikTok, and other platforms.
- **Paid Advertising Campaigns –** Run targeted ads to reach the right audience.
- **Audience Engagement –** Interact with customers through comments, messages, and reviews.
- **Performance Analytics –** Monitor campaign performance with detailed reports and insights.
- **Social Media Monitoring –** Track audience feedback, trends, and brand mentions in real time.
